Professional Summary:

Full-Stack Developer with 10+ months of experience specializing in React and Django. Collaborative and solution-driven, I excel in translating design mockups into user-centric applications. Eager to contribute expertise to innovative projects.

SKILLS

Technical Skills:

-Testing and debugging, Git.

Coding Skills:

-JavaScript, React.Js, Python, Django.

Personal Skills: Project Management, Team Player, Research, Problem Solving, Collaboration.

EXPERIENCE

BackEnd Developer, Netcraft Global Concerns July 2024 – September 2024, (Intenship)

Netcraft Global Concerns helps in Rebranding School Information System through training, support and management.

- Implemented the backend of the website based on Figma designs.
- Designed and developed APIs for login, signup, and logout functionality, ensuring secure user authentication.
- Integrated the backend with the frontend, ensuring seamless communication and user experience.
- Ensured data security by implementing appropriate authentication and authorization mechanisms.
- Optimized backend performance for faster response times and efficient resource management.
- Documented the API endpoints for easy integration and future maintenance.
- Integrated MySQL database for efficient data storage and retrieval, ensuring reliable and scalable backend performance.

Keywords: Django, API, Python

PROJECTS

E-Commerce Website:

Developed a full-stack e-commerce website using react-Js for frontend, express.js for backend, mongodb for database and Jason web-token for user authentication. I also integrated a secure payment gateway for transactions, providing a safe and user-friendly checkout experience.

Keywords: React.js, CSS, Responsive Design, git
